Symposium		Great Expectations Symposium	Dec 2-3	New York, NY

This calendar will be updated regularly; the latest program information can be found on www.homerstrykercenter.com.

Symposium

Didactic presentations will focus on the product choice options, techniques and clinical results. There is an opportunity for attendees to share interesting cases with the faculty and surgeon peers on surgical treatment options. This program is designed to enhance lively discussion and interaction on contemporary issues.

Surgical Training Program

The learning format will consist of cutting edge educational technologies including post-program web based and interactive learning, coordinated through each participant's personal home page on the Homer Stryker Center website. Surgical skills sessions will offer hands-on training for participants in cadaveric specimens and bone models guided by experienced surgeon faculty who will discuss their techniques and tips with participants.
